- A3,B4,C2

G.C.E A/L- 2021/2022

2019-2022

Govt. Science College , Matale

- Science For Technology - B
- Engineering Technology - B
- ICT - C

Undergraduate

2023-Present

University of Vocational Technology , Ratmalana

- B.Tech in Software Technology
-

PROJECTS

Health and Educational resource management system(ITP)

- Technologies Used: MERN Stack (MongoDB, Express.js, React, Node.js) Developed an Appointment Scheduling System as part of the Health and Educational Resource Management System (HWRMS) to streamline patient. Designed a user-friendly booking interface with realtime availability, automated reminders, and cancellation management. Implemented secure authentication, role-based access (patients, doctors, educators, and administrators)

Online tour guide system (OOP)

- Technologies Used: MySQL, HTML, CSS, JavaScript Developed a Java-based Online Tour Guide System to assist travelers in planning and managing tours efficiently. Implemented key features such as tour package browsing, real-time booking, itinerary management, user reviews, and location-based recommendations .According to the MVC architecture.

HomeStock – Home Inventory Management Web App

- Technologies Used: MERN Stack, Firebase (for authentication and media storage) Developed a collaborative skill-sharing platform enabling users to teach and learn various skills. Integrated rolebased user profiles (mentor and learner), skill categorization, course enrollment, and real-time chat support. Designed a modern UI and ensured a secure, scalable backend

A Library Management System

- Developed a PHP/MYSQL web application using MVC architecture
